

Road Tour Meeting Minutes

A short road Tour was held July 17, 2012 at 7 PM with Russ Nickerson, Michael Schmidt, Roger Corson, and Becky Otting present. Upon touring several roads in the township, it was determined that all township roads need to be checked for removal of brush and/or trees out of the road right of way due to July 2, 2012 storm that moved through the township. It was noted on 444th Street that the "Stop Ahead" sign when heading east is missing. Sign will need to be replaced. It was noted that standard 2" gravel should be placed on 245th Avenue North beginning south of Eichberg's driveway and continuing for 3/10" of a mile. 420th Street gravel is good no sign of washboard at this time.

Road tour adjourned at 8:00 PM.
